Helping you insure your future.

Aegis Technical Services, Inc.

Specializing in Technical and IT Consulting Services

Let Aegis Technical Services, Inc. Become Your Outsourced IT Department

We are Aegis Technical Services, Inc.

Our consultants and network specialists are experts in the rapidly changing IT marketplace. Aegis Technical Services, Inc. will help you make the right decisions for your business, governmental entity or school district. These decisions can impact the way you run your business both today and in the future. Allow us to help ensure you have the infrastructure in place to succeed.

Beyond the technical tasks, we believe you must go one step further. Our consulting services team is also here to help you put in place cyber safety measures that protect both you and your clients.

Let us help you...

Aegis Technical Services, Inc. offers a full line of PC and PC network services and support. They include:

- Consultation on a wide variety of IT issues and concerns, including stand-alone PCs, laptops, local area networks, wide area networks and Internet access.
- Installation and maintenance of hardware and software to suit all of your computer needs on a contract or as-needed basis.
- Consultation on cyber safety and liability, on such issues as online security against predators, data security, privacy guidelines for students and employees, and exposures for loss of information.

Our Services Include:

- **Installation and maintenance of hardware, software and infrastructure**
After helping you determine your computer needs, we can recommend, install and configure standalone PCs and laptops, including all the hardware and software necessary to run the desired applications. Our technicians will also setup laptops to connect to your network whether in the office or on the road.
- **Creation and maintenance of networks and infrastructure**
Our network specialists work with all of today's operating systems, including Microsoft and Novell. We install, configure and maintain these systems and our expertise extends to all client software and all types of hardware. Aegis Technical Service's network infrastructure consulting services will keep you up to date on the latest switches, hubs, routers and gateways and we can help you find products that meet your unique needs.
- **Cyber liability consulting and solutions**
Aegis Technical Services, Inc. will work directly with you to assess the cyber exposures in your business, school district or governmental entity. We then create customized solutions that protect both you and your customers. Specific training topics include, but are not limited to, misuse of Internet, email policies and liability, secure acceptance of credentials, and credit card acceptance and liability.

- **A quick and comprehensive service department**

At Aegis Technical Services, Inc., we understand that technical problems can bring your company to its knees quickly. We are readily available to assist to get you back up and running smoothly and our service department is committed to providing comprehensive and quick support, allowing your employees to concentrate on your business.
